

MOTOCROSS PROGRAM

Engine

Cylinder block, cylinder head and all lubricated internal parts, including crankshaft and bearing bushes, balances, pistons, shafts and segments, connecting rod and bearings, camshaft and bushings, valves, valve guide and springs, seats valves, rocker shafts and rocker arms, rocker rods and push rods, oil pump, oil tip, intake manifold, diaphragms, thrust washers, valve seats, valve seals, valve covers, anti-harmonic vibrator (timing chain and sprockets (gears) distribution), timing chain guides and tensioners, flywheel timing chain cover, engine mount, pulley, follower rollers, exhaust manifold, engine mounts.

Transmission

Housing, all lubricated internal parts including oil pan, sprocket, gear bearings, forks and synchronizers, transmission mounts.

Electrical accessories systems

Fuel injection and / or electronic ignition control unit, electric starter, alternator, magneto, switches (headlights, stop lights, parking lights, turn signals, horn), wiring harness, starter solenoid, ignition coil, rectifier block, choke, rotor (including assembly), voltage regulator, ignition switch (including cylinder), cruise control switch, cruise control module.

Cooling system

Water pump, hydraulic clutch of the fan, thermal contactor of the fan and electric motor of the fan.

Oil injection system

Injection pump, injection control gear, oil tank, level sensor, lines, injection dosing system.

Primary drive train components

Housing, all lubricated internal parts, gears, bearings, chains and mechanisms.

Suspension (front and rear)

Wheel bearings, all internally lubricated parts of the front forks and front hub, chassis, swingarm (including arm shaft), swingarm bearings / bushings, suspension arms, ball joints, rocket pivots (including pads and rocket).

Ignition and fuel supply system

Fuel pump, injectors, fuel tank (including tank components), flow regulator, metal conduits and fittings, fuel valve.

Brake components

Master cylinder, hydraulic brake booster, wheel cylinders, brake caliper and pistons, brake compensators, brake lines, brake pads, anti-lock brake system, drum brake control cam.

Steering components

Upper and lower steering column (including bushings), steering column shaft, tie rod ends, steering column (including end caps), bolt and column nut, handlebar, steering assembly to rack and pinion, intermediate steering lever (including steering arm).

Seals and gaskets

All seals and gaskets are included on covered components during a necessary repair related to breakage resulting in vehicle breakdown (seepage not included).

Loyalty program

If the vehicle is declared a total loss during the term of the mechanical warranty, a credit will be issued applicable to the purchase of a warranty on the next vehicle.

No deductible

Allows to avoid paying the applicable deductible in the event of an eligible claim covered by the warranty program.

OP

KM+ WARRANTY, ENJOY THE ROAD AND TRAILS WITH PEACE OF MIND!
