

COVERED PARTS

Motor: Only covered if the parts are original (manufacturer's parts).

All internal lubricated parts, including pistons, piston rings, oil cooling nozzles, oil pump housing, oil pump gears, oil pump filter, oil pump pickup tube, oil discharge springs, oil pump pressure, oil pump pressure relief valves, oil pan, oil cooler and housing, connecting rod shafts, connecting rods, connecting rod caps and screws, connecting rod bearings, crankshaft, bearings crankshaft, thrust washers, camshaft and cam bearings, cam followers, rocker shafts, rocker arms, connecting rods, hydraulic lifters, intake and exhaust valves, intake and exhaust valve guides, valve seats, valve springs, valve retainers and keepers, valve supports (locks), timing gears, timing gear cover, valve cover.

Other "non-lubricated" components covered: Thermostat housing, flywheel housing, intake manifold, exhaust manifold, vibration damper.

Complementary parts covered: cylinder head gasket, cylinder heads, injector cups, cylinder block frame, cylinder head bolts, assembly screws.

24/7 roadside assistance: Maximum compensation of CAD\$500 per event, maximum 1 service call per year covered by the contract. In the event of one of the following incidents towing, fuel-oil-water or fluid delivery (the cost of the fuel-oil-water or fluid is not included), lockout services (reproduction or replacement of keys is not included), tire Change (in case of flat tire), tire repair, quick start or pull start, replacement battery delivery.

Loyalty program: If the vehicle is declared a total loss during the term of the mechanical warranty, a credit will be issued to the purchase of a warranty on the next vehicle.

Turbocharger: Only covered if the parts are original (manufacturer's parts). Internal set of variable vane assembly, bearings, turbo actuator, turbines, turbine shaft, VPOD and turbocharger housing (excluding: wiring harnesses, relief valves, oil, fuel or coolant lines; fittings external, collars, bolts or fasteners / stops, charge air cooler and ducts, linkages, connectors, actuators, gaskets and gaskets, vacuum control or electrical components).

Fuel supply system and ECM: Only covered if the parts are original (manufacturer's parts).

Fuel supply system: complete injector (including injector sleeves), fuel pump, fuel injector hard lines and fuel injection pump.

ECM: module, disassembly and replacement labor.

Transmission and differential: Only covered if the parts are original (manufacturer's parts).

Transmission: All internal lubricated parts, including shafts, gear sets, shift forks, synchronizers, blockers, oil pump, valve housing, torque converter, governor, bands, drums, bushings, bearings and thrust washers. Gearbox housing including seals and static seals (only when repairing parts are covered by the transmission).

Differential: All internal lubricated parts, including axle housing, gear sets, bearings, bushings, drive wheel shafts, axle shafts, limited slip clutch pack, power divider (including shafts, gears, bearings and shift forks).

Differential cover included seals and static seals (only when repairing parts are covered by the differential).

Electronic parts, valves and sensors: Only covered if the parts are original (manufacturer's parts).

Aftertreatment electronic control module (ACM), sensors including: NOx, SCR (post) temperature, SCR (pre) temperature, DPF (Delta) pressure, pre and post DOC, DPF air supply pressure, DPF air, fuel manifold assembly, DPF backpressure, DPF fuel pressure, BPV pressure, Lambda, pressure after exhaust throttle valve, back pressure control valve (BPV), DPF dosing module, DPF wiring harness, DEF module with injection nozzle module, DEF heated lines, DEF heating control relay, DEF heater coolant control valve, DEF heating elements, DEF heating fittings (on the power module), DEF pump and module, DEF solution level / temperature sensor, DEF tank, diesel oxidation catalyst (DOC), diesel particulate filter (DPF), Hydrocarbon doser valve (Voss valve), Hydrocarbon doser injector (HC doser, 7th injector, ARD, AHI module), EGR actuator, EGR exhausts gas recirculation valves, ERG cooler, EGR connecting bellows and clamps, post-treatment ECM, DEF dosing module (wiring harness), exhaust piping (including clamps and gaskets), exhaust Throttle valve, hydrocarbon doser valve (including air / fuel / coolant lines and inline air filter), selective catalytic reduction (SCR) catalyst, SCR decomposition pipe and pipe elbows, wiring harness for emission systems (including overlay), back pressure control valve (BPV).

Auxiliary power unit (APU): Only covered if the parts are original (manufacturer's parts).

All internal lubricated parts, including pistons, piston rings, oil cooling nozzles, oil pump housing, oil pump gears, oil pump filter, oil pump pickup tube, oil discharge springs oil pump pressure, oil pump pressure relief valves, oil pan, oil cooler and housing, connecting rod shafts, connecting rods, connecting rod caps and screws, connecting rod bearings, crankshaft, bearings crankshaft, thrust washers, camshaft and cam bearings, cam followers, rocker shafts, rocker arms, connecting rods, hydraulic lifters, intake and exhaust valves, intake and exhaust valve guides, valve seats, valve springs, valve retainer, valve supports (locks), timing chain and gears, timing chain tensioner, timing gear cover, valve cover, constant velocity valve, oil pan, the injectors, water pump, excluding any damage resulting from leaking gaskets or damaged cylinder head gasket.
